

# Warranty Certificate

---

## Engine Assembly

Engines have a warranty for the amount of time printed on your invoice under normal driving conditions. This warranty is void if the engine is disassembled before our inspection or if the engine is overheated.

Accessories such as injectors, distributors, and water pumps are not covered under this warranty. If the 'Labor' warranty is selected, a maximum of \$500.00 will be paid toward labor. Replace oil and oil filter prior to use. Inspect and replace if necessary the following parts: valve cover gasket, oil pan gasket, rear main seal, timing belts or chains. Replace thermostat and gasket, spark plugs, and flush cooling system. Warranty voided if the above steps are not completed.

## Differential/Rear End

Differentials and Rear End Assemblies have a warranty for the amount of time printed on your invoice under normal driving conditions. This warranty is void if the unit is disassembled before our inspection. If the 'Labor' warranty is selected, a maximum of \$250.00 will be paid toward labor. Replace axle seals, yoke seal, and inspection cover seal if necessary before installation. Add proper fluid type to suggested levels. Warranty is void if the above steps are not completed.

## Transmission/Transfer Case

Transmissions/transfer cases have a warranty for the amount of time printed on your invoice under normal driving conditions. This warranty is void if the unit is disassembled before our inspection. If the 'Labor' warranty is selected, a maximum of \$400.00 will be paid toward labor. Automatic Transmission installation requirements: Replace front seals, replace axle seals, install new filter, flush cooler lines, add proper fluid type to suggested levels properly align torque converter, and properly adjust throttle position sensor cable. Standard Transmission installation requirements: Replace throw out bearing, replace pilot bearing, replace axle or driveshaft seal, drain and replace all fluids with suggested types and to correct levels. Warranty is void if the above steps are not completed.

## Small Parts

Small parts include: Starters, alternators, power steering pumps, A/C compressors, axles, rack and pinions, and brake boosters. Each of these parts carries a standard 6 month warranty. In the event of a return for a defective part, the warrantor reserves the right either replace the part or refund the amount paid for the part. No labor will be paid.
